INSPIRATION 2026

EDITORIAL

After a 2025 filled with exciting projects and events, 2026 promises to be just as vibrant and inspiring!

This year, we wanted to return to the very essence of **COMATEC**: Creation.

That's why we are proud to present new products imagined and designed by our own teams, reflecting our passion for innovation and design. Each of them has been crafted to highlight your culinary expertise at its finest.

Alongside this spirit of creativity, our core values – Service, Satisfaction and Responsiveness – remain firmly at the heart of everything we do.

Enjoy discovering our brand-new **2026 edition**!

François Dubuis

SERVICES +

DESIGN DEPARTMENT

Do you have an original creation in mind? Your ideas deserve exceptional packaging. Our design department is at your disposal to assess your project and provide solutions that meet your expectations.

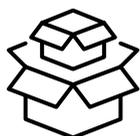

CUSTOMIZATION

You can customize some of our products with your logo (kraft boxes, woodbox, meal trays, napkins, etc.) using pad printing, offset printing, or engraving techniques.

SAMPLES

To satisfy your curiosity, choose the right capacity, or do kitchen tests, we can be sent samples for most of our products. We reserve the right to charge shipping fees and some items. Items sold individually can't be requested as samples.

INTERNATIONAL SHIPPING

Comatec is an Authorized exporter (AE No. FRO03480/0176) and as well an Registered Exporter (REX No. FRREX20221934). These certifications give you custom advantages such as reduced or eliminated custom duties for preferential origin products under free trade agreements.

SHIPPING FEES

Our shipping cost are based on weight and volume each other. The shipping amount is indicated on every proforma invoice.

FASTEN DELIVERIES

Option may apply depending the delivering zones. This option is subject to additional charges.

PAYMENT TERMS & PRICES

Payment terms are defined by our accounting department. Accounting department contact : +33 4 68 72 77 92. All prices are exclusive of tax except for a delivery in France directly.

For the General Terms and Conditions of Sale, visit www.comatec-shop.com

MEMO

CUSTOMER ACCOUNT NUMBER

You will find your customer code on our sales documents.
This guarantees that your order will be processed quickly and error-free.
Create your customer account online on our website www.comatec-shop.com
or with our dedicated team export@comatec.fr
Call us at **+33 4 68 11 27 95** from Monday to Friday: 9am-5:30pm (UTC+1)

PLANETSCORE[©]

FIRST ENVIRONMENTAL FRAMEWORK IN THE PACKAGING INDUSTRY

planetscore.eu

Launched by Comatec alongside its 2020 catalog, the PlanetScore provides valuable insights into the environmental and social impacts of packaging. In 2024, we enhanced this tool by refining its methodology and reinforcing its reliability. We are proud to introduce the latest version of our PlanetScore!

Still rooted in a «life cycle» approach, this update brings greater transparency regarding the materials used and their footprint. The PlanetScore has become an essential tool for any foodservice professional seeking sustainable packaging solutions.

ORIGINAL &
COMMITTED P

A score based on 4 criteria:

Extraction or cultivation of raw materials and their processing.

Transportation from the manufacturing site to Comatec.

Each criterion is individually assessed and scored based on precise methodologies and weighting factors. These are then combined to provide an overall score represented by a letter grade ranging from A to E. The closer a product is to an «A» rating, the lower its environmental impact.

AUDE

OUR COMMITMENTS

30 YEARS OF SUSTAINABLE INITIATIVES

At Comatec, we’ve integrated sustainability into our business strategy since our founding in 1994, acknowledging our social and environmental responsibilities. Thanks to this approach involving numerous concrete actions, our efforts were rewarded in 2025 – for the first time – with the Ecovadis Gold Medal! Comatec now ranks among the top 5% of companies rated by this international assessment platform.

AN INNOVATIVE AND SUSTAINABLE PRODUCT OFFERING

This pillar focuses on two key objectives: offering virtuous products and supporting our customers in their daily sustainability efforts.

We provide reusable products, alternatives to plastic materials, FSC® and PEFC-certified items, and French-made products.

To help you choose the most sustainable packaging, Comatec has developed the PlanetScore—an environmental and societal rating applied across our product range.

Your satisfaction is the measure of our success. We strive to deliver responsive, high-quality service and build a future of meaningful collaborations together.

A HUMAN-CENTERED AND COMMUNITY-DRIVEN COMPANY

At Comatec, we’re committed to addressing social and human challenges, starting with the well-being of our employees and extending to our local impact. Since 1994, we’ve partnered with four ESATs (Establishments and Services for Work Assistance) in Aude, supporting the inclusion of people with disabilities. Over 80 individuals work daily for Comatec through these partnerships. We also celebrate and promote French culinary expertise. By participating in professional networks and supporting dedicated events, we help preserve and honor this invaluable heritage.

A RESPONSIBLE AND ENGAGED BUSINESS

Our commitment also extends to minimizing the environmental impacts of our operations—managing waste, energy consumption, and greenhouse gas emissions.

We maintain ethical standards across our business practices, from GDPR compliance to anti-corruption measures.

We encourage our suppliers to embrace sustainability by adhering to our code of conduct and integrating specific clauses into their contracts.

Collaboration with our partners enables us to collectively achieve greater progress.

ORIGINAL & COMMITTED P

UPCOMING DEADLINES WITH THE AGEC LAW

2023

OBLIGATION TO USE REUSABLE DISHES

In catering establishments serving more than 20 covers at table (Prohibition on the use of disposable tableware)

> COMATEC has developed a range of reusable products in several materials to meet your needs.

2024

BIO-WASTE MUST BE SORTED AND RECYCLED

(valid for professionals and individuals)

> Bio-waste includes, in particular, food waste from kitchens and tables. Let's talk about it, we can advise you.

Implementation of a new Extended Producer Responsibility (EPR) scheme for packaging in the catering sector.

2025

ALL SINGLE-USE PLASTIC PACKAGING MUST BE RECYCLABLE

> COMATEC is committed to this issue and is actively working to offer you a range of 100% recyclable plastic products.

50% reduction in food waste by 2025 (compared to 2015 figures) for mass catering. The deadline is extended to 2030 for commercial catering.

2029

TARGET 90% OF PLASTIC PACKAGING MUST BE COLLECTED FOR RECYCLING.

2040

END OF SINGLE-USE PLASTIC PACKAGING

> COMATEC continues to offer you a range of innovative, reusable products in different materials to meet your needs.

ADDITIONAL INFORMATION

> The AGEC law is a French law on the fight against food waste and for a circular economy.

> The law was adopted in February 2020 and includes a number of measures to reduce food waste and promote the use of reusable and recyclable materials.

> The image shows the key deadlines for businesses and individuals to comply with the AGEC law.

Please note that these deadlines and requirements are subject to change depending on ongoing developments in European regulations.

HOW TO CHOOSE YOUR MATERIAL?

BAGASSE

A natural by-product of sugarcane.

PRODUCT BENEFITS

Good resistance to water, grease, heat, and lightweight

PALM

Derived naturally from the areca palm leaf sheath. No treatment or additives are used in the production of this tableware.

PRODUCT BENEFITS

100% natural, water and grease impermeable, heat resistant, and each piece is unique.

BAMBOO

A fast-growing, water-efficient natural woody grass.

PRODUCT BENEFITS

Durable, lightweight, and maintains well in humidity.

WOOD (RAW OR WITH COATING)

Sourced primarily from French poplar forests.

PRODUCT BENEFITS

Lightweight and offers no taste transfer, making it a valuable option for eco-friendly packaging and utensils.

CARDBOARD | PAPER (RAW OR COATED)

Vegetable fibers from trees processed into cellulose and then layered to produce cardboard.

PRODUCT BENEFITS

Lightweight, great potential for promotional support, customization possible.

CERAMIC

A combination of three natural elements: earth, water, and fire, allowing for a variety of shapes, from classic to modern.

PRODUCT BENEFITS

Heat-resistant, solid, waterproof, no transfer of smell or taste, and corrosion-resistant.

PS

Plastic transformed by injection, allowing diverse forms.

PRODUCT BENEFITS

Lightweight, transparent with a glossy finish, and can be colored. Some PS products are tested for being washable at least 20 times, thus reusable.

PP | PP-TALC

Plastic transformed by injection, offering a wide variety of shapes. The addition of talc makes products more rigid and reduces plastic use by up to 20%.

PRODUCT BENEFITS

Solid, microwave-safe, lightweight, shock-resistant, and can be colored.

PET | rPET

Plastic transformed through blow molding or thermoforming. RPET is recycled PET.

PRODUCT BENEFITS

Lightweight, flexible, and transparent.

TRITAN™

A type of plastic polymer transformed by injection.

PRODUCT BENEFITS

Transparent, solid, shock-resistant, and lightweight.

PMMA

Thermoplastic polymer (or polymethyl methacrylate) with a smooth and glossy surface.

PRODUCT BENEFITS

Excellent durability, lightweight, and transparency.

GLASS AND BOROSILICATE GLASS

Available in two types: soda-lime (classic), containing 70% silica (avoid thermal shock > 30°C), and borosilicate, consisting of 80% silica.

PRODUCT BENEFITS

Transparent, solid, scratch-resistant, waterproof, no transfer of smell or taste.

ALUMINIUM

A naturally abundant chemical element found in the Earth's crust, aluminum must be processed before it can be used. Its versatility makes it an excellent choice for food packaging.

PRODUCT BENEFITS

Lightweight, durable, waterproof, non-toxic, and recyclable.

STAINLESS STEEL

18/8 stainless steel.

PRODUCT BENEFITS

Unbreakable, lightweight, waterproof, and sturdy - resistant to corrosion.

IOTA

An innovative crockery concept, the IOTA bowl is made of black brushed PP, with generous, rounded shapes. IOTA is microwaveable and reusable. It can be used as modern tableware or as a takeaway solution. The bowls can be screwed together, allowing numerous combinations. A screw-on lid secures transport, especially in our cotton bag.
